FRUITS&VEGETABLES

OMS GROUP

INTRODUCTION

OMS Group offers a wide range of solutions, even combined, suitable for the packaging of Fruits and Vegetables industry.
In a market where the adoption of machines and combined solutions is required, efficiency, stability, compactness and safety are fundamental characteristics for the companies' choices.

OMS Group cutting-edge technologies meet the companies' needs by paying close attention to the product's integrity and preservation, making it stable during transport and storage, with the operator's safety being an equally primary objective.

FRUITS&VEGETABLES

STRAPPING MACHINES

WRAPPING MACHINES

Suitable technologies

06GS

08COMBO

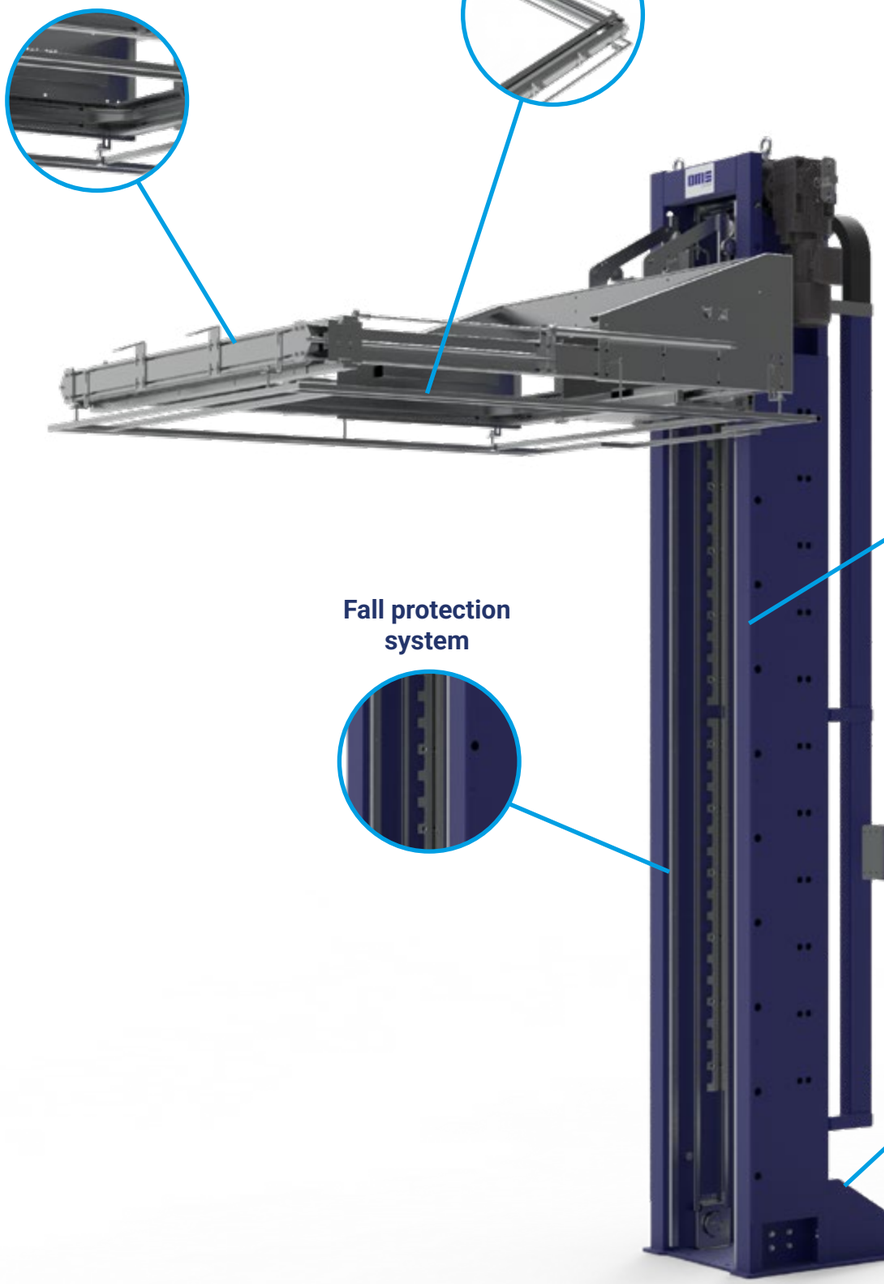
STRAPPING
MACHINES

+

06GS HORIZONTAL STRAPPING MACHINE

Arch designed for packages measuring 600x600 mm and 1200x1200 mm

Anti-collision system on the package

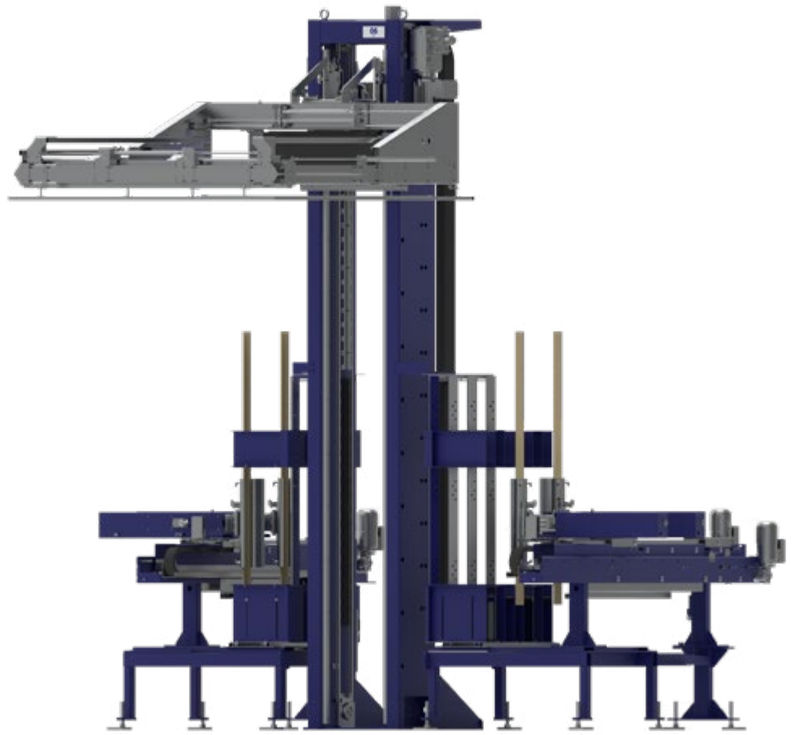


High stacking column for fruit pallets

Fall protection system

Small floor space requirement

06GS Corner application device

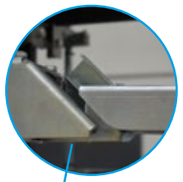


06GS Packaging Solution

PACKAGE on **PALLET**

08COMBO VERTICAL STRAPPING AND WRAPPING MACHINE

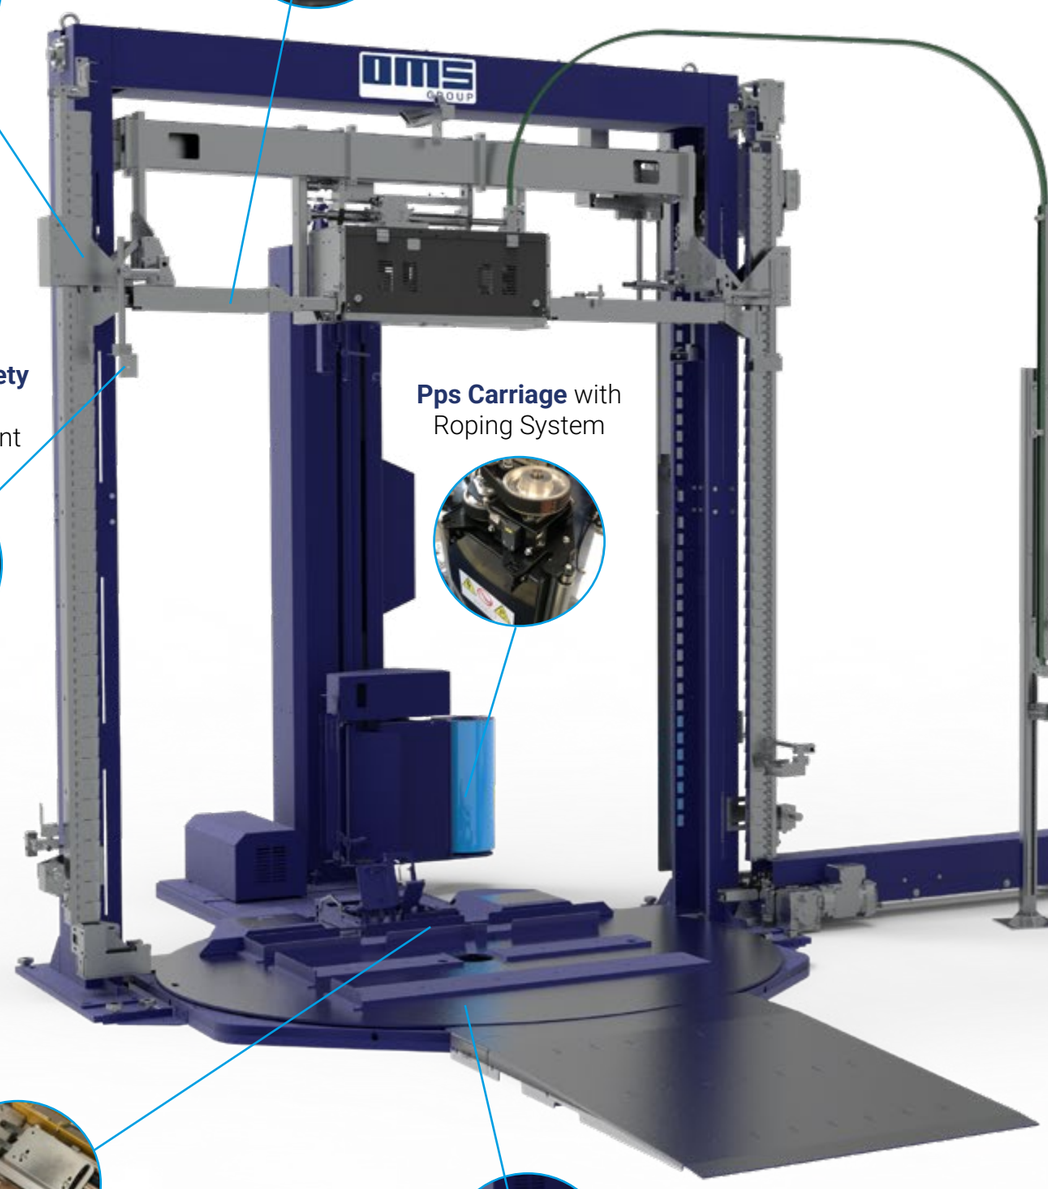
Automatic descent blocking device, in any position, for machine maintenance

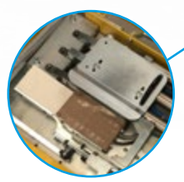


Strapping head mounted on **floating tension compensation system**

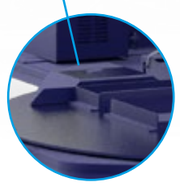
Anti-collision safety photocells for descent movement

Pps Carriage with Roping System





Sealing Unit

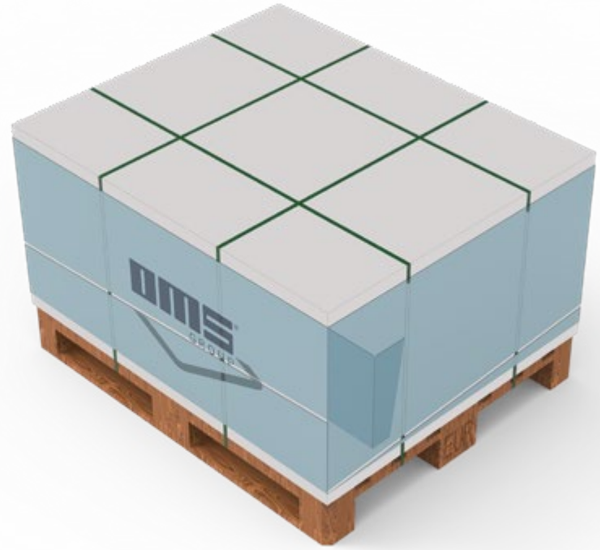


Fully automatic low profile turntable machine

Retractable bayonet controlled by inverter

Standard coil holder PB 11

08COMBO Packaging Solution



STRAPPING and **WRAPPING COMBO**

The Group

As a global leader, **OMS Group** specialises in the **design** and **manufacture** of **end-of-line packaging solutions** and **complete packaging lines**.

Established in Italy, it currently operates **12 branches worldwide** and provides cutting-edge technologies for every stage of the end-of-line process, including **strapping heads, strapping machines, hooding machines, thermoshrinking and wrapping machines.**

OMS Group has always been committed to consolidate and expand its global sales network and service assistance.
